

# SPECIFICATIONS CIVIL ENGINEERING

## BELOW GROUND CONCRETE WALL AND SLAB - INTERNAL WATERPROOFING

### Scope

Internal waterproofing of new or existing below ground wall and slab structures subject to ground moisture or hydrostatic pressure.

## **Application Instructions**

- 1 Optional: Chisel out a reglet (approx. 30 × 30 mm) along the construction joints. Fill the cleaned reglet with VANDEX UNI MORTAR 1, such that it finishes flush with the internal surface.
- 2 Apply one coat of VANDEX SUPER to slab surface.
- **3** Apply two coats of VANDEX SUPER to the interior wall surface.

### Remark:

- Substrate adhesion strength > 1.5 N/mm<sup>2</sup>

For further technical details and consumptions refer to technical data sheet or consult a technical Vandex representative.
